## PROFESSIONAL EXPERIENCE

### **Frontend React.js Developer**

As a react.js frontend freelancer, I have gained experience working on various projects for clients in different industries. Along with my freelance work, I have also dedicated time to personal projects to continually improve my skills as a ReactJS developer. Through my work, I have developed a strong understanding of React fundamentals and best practices, and have applied these skills to create dynamic and responsive user interfaces. My portfolio showcases my ability to build and deploy web applications, while continuously improving my skills in web development. Currently, I am working on a new full-stack web application for a client, which will further enhance my skills and experience as a ReactJS developer.

### **Atyaf Company, backend developer (PHP Laravel) Training**

December 2021 – 2022 | gaza, Palestine

I completed a training program in backend web development using PHP Laravel, SQL, and GraphQL. I gained hands-on experience developing scalable web applications using PHP Laravel, while utilizing SQL for database management and GraphQL for API development.
